Education

B.S., Earth Science, UC Santa Cruz, California, 2016
B.A., Computer Science, UC Santa Cruz, California, 2016

Representative Experience

Mr. Harmon has over 3 years of professional experience as a staff geologist at Cotton, Shires and Associates, Inc (CSA). As a staff geologist, Mr. Harmon has assisted CSA with a variety of projects through collection, compilation, and analysis of geologic data, and preparation of technical maps and reports. In addition to office work, Mr. Harmon assists CSA with the following field tasks: topographic surveying, distress mapping, geologic mapping, floor level surveying, logging of exploratory boreholes and test pits, laboratory testing, earthwork observation and testing, along with installation and monitoring of inclinometers, extensometers, piezometers. Mr. Harmon also participates in geotechnical peer review of on-going and proposed work performed for communities in the San Francisco Bay Area.

Mr. Harmon is proficient with the following programs to assist with the above-mentioned tasks: AutoCAD, Geographic Information Systems (GIS), Excel, and Python.

Prior to his employment at CSA, Mr. Harmon worked at University of California, Santa Cruz where he studied Earth Science and Computer Science. During his undergraduate study, Mr. Harmon assisted research scientists measuring and analyzing concentrations of radium isotopes in groundwater. Study sites include California, Alaska and Tahiti.
