Representative Experience

Carl Manisco has over 15 years' experience as a public service provider for local municipalities as a permit services technician and project coordinator, where he issued building permits, provided face-to-face public counter consulting, reviewed plans, and managed records.

Mr. Manisco has extensive experience in both the public and private sector focusing on development of new onsite wastewater treatment systems and wastewater management, with the main objective to improve water quality, and environmental and public health and safety.

He is currently a project technician and coordinator assisting in peer reviews for the City of Malibu and the City of Rancho Palos Verdes. He is also a field technician assisting in geotechnical investigations.
